- 14.2 Unless the Company agrees otherwise in writing, the Client shall be treated as a Retail Client in accordance with applicable legislation, as amended from time to time.
- 14.3 To request a change in Client Categorization, you will need to inform us in writing, notifying us about your request to be treated as a Professional Client, either generally or in respect of a particular investment service or transaction, or a type of transaction or product. Our Online Trading Facility is intended for your personal, non-commercial use only, unless we have expressly agreed otherwise beforehand and in writing. You agree to use the information from our Online Trading Facility (and/or from any other of our information systems) for the sole purpose of entering into and executing Transactions and/or Contracts through our Online Trading Platform. Unless we expressly agree otherwise beforehand and in writing, we are providing our Online Trading Facility only to Persons who are Non-Professional Users and only for the purpose of, and subject to these Terms. You represent and warrant to us of the date of acceptance of these Terms and Conditions and each time you access our Online Trading Facility that you are a Non-Professional User. You will notify us immediately in writing if you cease to be a Non-Professional User and acknowledge that as a result of doing so we may restrict, suspend and/or terminate your access to all or part of our Online Trading Facility, at our sole discretion, without being obliged to provide you with any explanation or justification.
- 14.4 The type of Client Categorization will determine the level of protection afforded to the Client under applicable legislation. A Retail Client is afforded with the highest regulatory protections available. The Company will notify the Client in writing to inform him/her of his/her loss of certain regulatory protection(s) prior to agreeing to Client’s re-categorization request.

- 14.5 The Client Categorization Policy may be reviewed, at any time, by the Company at its own discretion. The Client shall be notified in writing by the Firm in relation to the above.
- 14.6 A full explanation and description of procedures applied for categorization of Clients can be found in the Client Categorization Policy which is posted on the Company’s Website.
- 14.7 We shall treat you as a Retail Client for the purposes of the CySEC Rules and the Applicable Regulations. You have the right to request a different method of categorization as is explained under the Client Categorization Policy found on the Company’s Website. However, if you request a different categorization and the Company agrees to such categorization, you accept that the level of protection that is afforded by CySEC Regulations and other Applicable Regulations may differ. The Company cannot enter into title transfer financial collateral arrangements with Retail Clients. Remuneration practices which could provide an incentive to the Company’s staff to recommend a particular financial instrument to a Retail Client when the Company could offer a different financial instrument which would better meet that Client’s needs are also prohibited. In the case of Professional Clients and Eligible Counterparties, the Company may agree to provide more limited information as provided by Applicable Regulations.
- 14.8 It is understood that we have the right to review the Client’s Categorization and change your Categorization if this is deemed necessary (subject to Applicable Regulations). You accept that when categorizing you and dealing with you, the Company will rely on the accuracy, completeness and correctness of the information provided by you in your Account Opening Application Form and the Financial Suitability Questionnaire. In order to approve the Authorized Representative, the Company shall require the Approved Representative to provide identification details and other documents and information (i.e. the Fund Manager License).

In this respect, the Client is encouraged to provide accurate and sufficient information about his/her knowledge and experience related to the services and products envisaged so as the Firm can properly assess whether those services and products are appropriate for each specific Client. If the responses provided by any Client are considered as insufficient or are inconsistent or conflicting, the Company may require further clarifications as to these responses or it may reject Clients’ application for the Account Opening. The Client acknowledges that by providing misleading and/or false information in terms of the Appropriateness Test, the Company will not be held responsible for any excessive losses that might be caused due to the high leverage.

If the Company will provide the Investment Services of Investment Advice by recommending a package of bundled services or products, it will ensure that the overall bundled package is suitable for the Client and to enable the Company to act in the Client’s best interest. The Company is entitled, at its sole discretion, to request additional information regarding the Client or/and to request an update of the data notified by the Client, whenever it deems this necessary. The Company shall assume that information provided from the Client to the Company is accurate and complete and the Company shall have no responsibility to the Client if such information is incomplete or misleading or changes or becomes inaccurate and the Company will be deemed to have performed its obligations under Applicable Regulations, unless the Client has informed the Company of such changes. A notification will be sent to the Client, via any durable mean like the Online Trading Facility and/or by e-mail, notifying the Client of any change in trading conditions, including but not limited to leverage ratio.

The Client acknowledges and agrees that Spreads may widen at any time and without prior notice and that there is no limit to how wide Spreads may be.

- 24.6.3 Types of Orders
- 24.6.4 The Company shall provide the Client with an option to place, following order types:
- (a) A Market Order which is an order that the Company makes every effort to execute at the best available price. Generally, this order will be executed immediately, however, the price at which a market order will be executed is not guaranteed and may be executed at a worse or better price, known as negative or positive slippage. The Client may attach a stop loss and/or a take profit and/or a trailing stop when entering Market Order.
 - (b) A Limit or Range Order which is an order to sell a financial instrument at no less than a specific price or buy a financial instrument at no more than a specific price. The Client may attach a stop loss and/or a take profit before the order is executed. In this case the order will be executed at the price specified or better.
 - (c) A Pending Order or an Entry Order which is an order to be executed at a later time and a price that the Client specifies. When the price reaches the price specified by the Client, then the order becomes a market order. Negative and positive slippage applies to pending orders. The Client has the option to place the following pending or entry orders:
 - A Buy Limit Order, which is a pending or entry buy order placed below the current market price. If the market price drops to the level of the buy order that order is then triggered.

 - (d) A Trailing Stop Order which is a stop loss order set in terms of points (pips) level below the market price – for a long position and above the market price – for a short position. The trailing stop price is adjusted as the price fluctuates.
- 24.6.4 Such orders as Buy Limit, Buy Stop and Stop Loss/ Take Profit for opened short positions are executed as ASK price. Such orders as Sell Limit, Sell Stop and Stop Loss/Take Profit for opened long position are executed at BID price. All orders once triggered are executed as Market Orders at the best available price.

24.7 Size of Order

- 24.7.1 The size of an Order is expressed in lots. The minimum and the maximum order size may depend on the account type and/or asset class and/or particular financial instrument. The Company reserves the right to alter the minimum and/or maximum order size at any given time. A detailed information regarding available order sizes can be found on the Company’s Internet Website.

24.8 Costs

The Client is charged a spread (liquidity quoted prices plus a mark-up) and may be requiring paying swaps (overnight interest rate) or commission, if applicable, in some financial instruments depending on the account type. Commissions and Swaps are not incorporated into the Company’s quoted prices but charged separately. A detailed information regarding costs is provided in the [Costs, Fees and Charges](#) section of the Agreement.

Upon closing a Transaction, and subject to any applicable adjustments for interest and dividends in accordance with this Agreement:

- A. The Company will pay the Client the difference between the price in which the Transaction was opened and the price in which the Transaction was closed, multiplied by the number of units of the Underlying Instrument that comprise the Transaction if the Transaction is

- B. The Client will pay the Company the difference between the price in which the Transaction was opened and the price in which the Transaction was closed, multiplied by the number of units of the Underlying Instrument that comprise the Transaction if the Transaction is:
- a long Transaction and the Transaction’s closing price is lower than its opening price; or
 - a short Transaction and the Transaction’s closing price is higher than its opening price.

24.9 Rollovers and Expiration Dates

- 24.9.1 For certain CFDs, an expiry date and/or rollover may apply.
- 24.9.2 The Client acknowledges and agrees that the Company will have the right to close any Transaction and remove any pending orders, in its sole and absolute discretion without notice, if the Reference Instrument is a derivative financial instrument which may settle on expiry by a delivery other than in Cash (Spot), at a reasonable period prior to the expiry date (the details of these dates are available at the Company’s website), as determined in the sole and absolute discretion of the Company (Usually on the expiry date).
- 24.9.3 The Company will not be subject to any obligation to rollover any position which is subject to settlement on expiry, however certain CFDs may be subject to rollovers. In those cases, Client’s account will be debited or credited, depending on the price difference between the old and the new CFD contract.
- 24.9.4 The Client acknowledges that it is the Client's responsibility to make himself/herself aware in regard to CFDs expiry dates and/or rollovers. Information regarding the expiry dates of CFDs is available on the Company’s Website.

24.10 Dividends

- 24.10.1 In the event of a distribution of cash dividends in relation to a share CFD, a dividend adjustment will be made to the Client’s Balance with respect to the underlying share’s Positions held by the Client at the end of business day which precedes the ex-dividend date. The dividend adjustment shall be calculated by the Company, based on the size of the dividend, the size of the Client’s position, taxation (if applicable) and whether it is a buy or a sell Transaction, whereby in long Positions the adjustment shall be credited to the Client’s Balance and in short positions the adjustment shall be debited from the Client’s Balance. Dividends shall be credited or debited from the Client’s Balance outside the underlying share’s trading hours and before and the opening of the share’s next trading day and are contingent upon the Client holding his/her respective Position at the time of the dividend adjustment. During this period, in order to keep the fair value of the Client’s Equity until the opening of the next trading day, the Company shall adjust the Client’s Position in accordance with the dividend amount debited or credited from the Client’s Balance.

24.11 Margin Call

- 24.11.1 A Margin Call occurs when the Account’s equity is about to drop below the margin requirement needed to maintain open Transaction(s). The equity-to-margin ratio level, triggering Margin Call, is provided on the Company’s Internet Website. The Company reserves the right to change the Margin Call level at any time and at its own discretion.
- 24.11.2 The continuous drop of the equity-to-margin ratio after triggering Margin Call may lead to a Stop-out.
- 24.11.3 The Client shall be obliged to constantly monitor the amount of the required Margin and the amount of additional funds that must be kept on the relevant Account in respect of Open Positions held by the Client from time to time.

24.12 Stop-out

- 24.12.1 A Stop-out occurs when the account’s equity drops below the margin requirement needed to maintain open Transaction(s). The equity-to-margin ratio level triggering Stop-out, is provided on the Company’s Internet Website. The Company reserves the right to change the Stop-out level at any time and at its own discretion.
- 24.12.2 Once the Stop-out is triggered on the Client’s Account, the MT4 will automatically start closing open positions, starting from those, which bring the most significant losses. The system will continue to systematically close transactions until the increase of the equity-to-margin ratio reaches the required level.
- 24.12.3 The Client should note that a Stop-out may occur even if the Account is fully hedged. When an account is fully hedged, no margin requirement is needed, however the equity is affected by the floating PnL. If the spread widens, the floating PnL will increase. In this case, if floating PnL is greater than the equity, the account will get stopped out.

24.13 Negative Balance Protection

- 24.13.1 It is the Company’s policy that the Client’s Equity in the Account will never fall below zero. In the event that a Position is closed at such price causing the Equity to fall below zero, the Company shall waive its right to receive the balance from the Client. This policy applies to both Retail and Professional Clients.

24.14 Slippage

- 24.14.1 Due to fast moving markets, all type of Orders as disclosed in the [General Trading Conditions](#) section of the Agreement will be executed at prices worse or better due to Negative or Positive Slippage, although the Company will take all reasonable steps to provide Clients the best available price.
- 24.14.2 It is important to note that Slippage does not affect the Negative Balance Protection and therefore the Client will never lose more than the amount invested (including any profit, if gained), even if a slippage occurs. In addition, transactions in some currencies (e.g. RUB) or other instruments (e.g. shares, indices) which are not traded on a 24 hours basis, may experience a Market Gap on a daily basis and are therefore are more susceptible to slippage.

24.15 Market Gap

- 24.15.1 The Client understands that a Market Gap may occur due to abnormal market conditions and/or as a result of the price difference between the closing and the opening price.
In case of a Market Gap, the Company shall execute all pending limit or stop orders at the first available market price for the corresponding position size.

24.15 Shares CFD – Expiration

- 24.15.1 CFDs whose Underlying Assets are Shares are traded in conjunction with the times in which the underlying share is traded. Without derogating the provisions of the Agreement, Share CFD Transactions may be terminated by the Company upon the occurrence of such events as: Corporate Actions, Suspension, Trading Termination, Insolvency. In such event, the settlement price shall be the last traded price at or prior to the time of termination.
- 24.15.2 Corporate Actions
 - 24.15.2.1 If a corporate action materializes, the Client accepts that the Company reserves the right to make appropriate adjustments to the value and/or size of a transaction and/or number of any related transactions; any such adjustment aims in preserving the economic equivalent of the rights and obligations of both the Client and the Firm immediately prior to a corporate action. It should be noted that these adjustments are conclusive and binding upon the Client; the Client will be informed accordingly by the Company as soon as reasonably practicable.
 - 24.15.2.2 The Client accepts that if he/she has any open positions that are affected by the corporate action, on the ex-dividend day the Company reserves the right to close such positions at the last price of the previous trading day and open the equivalent position at the first available price on the ex-dividend day; under the above mentioned circumstances, the Company shall inform the Client accordingly, through the internal e-mailing system, no later than the closing of the trading session prior to the ex-dividend day.
 - 24.15.2.3 The Company bears no responsibility for notifying the Client regarding announcement of corporate actions.
 - 24.15.2.4 A client holding a long position on the ex-dividend date will receive the applicable dividend, in the form of a cash adjustment, deposited to the relevant account. A Client holding a short position on the ex-dividend date will be charged the applicable dividend, debited from the relevant trading’s account free equity. In the event a Client maintains a short position on the ex-dividend date and has insufficient free equity in their trading account to cover the reverse cash adjustment, the Company reserves the right to close the open position. Under such circumstances, the reverse cash adjustment shall be deduced from the trading account’s balance.

- 24.15.2.5 The Client accepts the Company retains no requirements to notify a Client in the event a trading account maintains insufficient free equity to cover a reverse cash adjustment for a short position.
- 24.15.2.6 In the event of a stock split, the appropriate adjustment on the Client’s net position shall be reflected on the trading account in accordance with the announced stock split.
- 24.15.2.7 In the event of a share being de-listed, the Client’s position will be closed at the last traded market price.

24.15.3 Suspension

- 24.15.3.1 If at any time trading on a relevant Financial Market or trading in a certain Underlying Asset is suspended, the Company shall suspend the trading in the CFD Transactions based on such Underlying Asset and calculate the value of the CFD with reference to the last traded price before the time of suspension, as reasonably determined by the Company. In the event that the aforesaid suspension continues for five Working Days, the Company may decide, at its sole and absolute discretion, a Closing Time and price of the relevant CFD. During the term of a CFD Transaction whose market is suspended, the Company shall have the right to terminate the CFD Transaction at its discretion, and to amend or vary the requirements.

24.15.4 Trading Termination

- 24.15.4.1 If an Underlying Asset has ceased (or will cease) to be listed, traded or publicly quoted for any reason and is not immediately re-listed, re-traded or re-quoted on the relevant Financial Market or quotation system (including in the event of any insolvency of a company whose shares constitute an Underlying Asset), the Closing Time of the relevant CFD shall be a reasonable time prior to such time in which the Underlying Asset will cease to be listed, traded or publicly quoted and the Company shall close all the relevant Transactions at the Closing Time.

24.15.4 Insolvency

- 25.6 The Company is strongly opposed on providing business to Clients whose funds are sourced from criminal activity.
- 25.7 Monitoring
- 25.7.1 The electronic monitoring of transactions is an issue that is receiving a great deal of attention by the financial services industry. More and more transactions are being undertaken electronically, without any human intervention, providing those involved in money laundering with greater opportunities to launder money and to remain undetected.
 - 25.7.2 There is recognition by the industry and regulators that the electronic monitoring of transactions can provide some protection in dealing with this risk. A monitoring system can provide an effective way of identifying potential money laundering transactions.
 - 25.7.3 Transactions executed for the Client are compared and evaluated against the anticipated movement of the account, the standard turnover, business and customer data/information held and according to the economic profile of the customer. Significant deviations are investigated, and the findings recorded in the file of the Client.

26. Client Money

- 26.1 The Company will promptly place any Client money it receives into one or more segregated account(s) (denoted as ‘clients’ accounts’) with reliable financial institutions (within or outside Cyprus or the EEA) such as a credit institution or a bank in a third country. It is understood that the Company may keep merchant accounts in its name with payment services providers used to settle payment transactions of its Clients. However, for the avoidance of doubt, it is noted that such merchant accounts are not used for safekeeping of Client money but only to effect settlements of payment transactions.
- 26.2 The Company will exercise reasonable skill, care and diligence in the selection, appointment and periodic review of the institution where Client Money is deposited, in accordance with its legal obligations. The Company takes into account the credit rating of the institution prior depositing Client Money with the said institution. The Company takes reasonable steps to periodically monitor the credit risk of that institution. The Company may use multiple institutions to ensure diversification and allocate internal percentage limits for each institution. It should be noted, that segregated accounts(s) will be established, maintained and operated according to the applicable rules and regulations.

- 26.3 The Client acknowledges and agrees that unless otherwise agreed in writing, any assets in the Client’s Account shall be held in an account or accounts maintained by, and in the name of, the Company and at the Bank Account/s of the Company’s choice and that the assets in the Client’s Account shall be commingled with the assets of other customers of the Company (omnibus accounts).
- 26.4 The Company shall not be liable for any losses that the Client may incur due to insolvency or any other analogous proceedings or failure of the financial institute or payment service provider in which Client’s funds are held. The financial institution to which the Company will process Client money may hold it in an omnibus account. Hence, in the event of the insolvency or any other analogous proceedings in relation to that financial institution, the Company may only have an unsecured claim against the financial institution on behalf of the Client, and the Client will be exposed to the risk that the money received by the Company from the financial institution is insufficient to satisfy the claims of the Client.

- 37.1 Without prejudice to any other provisions herein and in particular paragraph 15.13 of this Client Agreement, once the Client places an Order on the Trading Platform, the Company arranges for the execution of the said Order with the Execution Venue according to the Summary of Best Interest and Order Execution Policy, found on the Company’s Website. It is understood that the Company executes the Client Orders in CFDs as a principal to principal against the Client, i.e., the Company is itself the Execution Venue for the execution of the Client Orders.
- 37.2 You acknowledge and agree that each Transaction conducted on the Trading Platform, is comprised of first an offer by you to us to complete a Transaction (whether such offer is to open a Position or close an Open Position) at a certain price quoted on the Trading Platform, and our subsequent acceptance of your offer. An Offer will be deemed to have been completed only when your offer has been received and accepted by us. Our acceptance of an offer will be evidenced by our confirmation of its terms to you and its completion.
- 37.3 You may request to cancel or amend a Transaction at any time prior to our completing such a Transaction.
- 37.4 We reserve the right to void from the outset any Transaction containing or based on any Manifest Error. In the absence of our fraud or willful default, we will not be liable to you for any loss, cost, claim, demand or expense following any Manifest Error.
- 37.5 You shall comply with any restrictions that we notify to you from time to time with respect to your activities on the Trading Platform, including without limitation, the size of Transactions or other conditions that may apply to our Quote. You acknowledge that we may offer to and impose on each Client, in our sole discretion, different terms and restrictions with respect to their use of the Trading Platform.
- 37.6 You acknowledge that the Trading Platform is independent of any Underlying Markets and we are under no obligation to quote a particular price or follow the trading rules consistent with such Underlying Markets. You further acknowledge that the triggering of your Order is linked to the prices quoted on the Trading Platform, not the prices quoted elsewhere on the relevant Underlying Markets and the Company does not guarantee that when executing an Order its price will be more favorable than one which might be available elsewhere. In determining whether the prices quoted on the Trading Platform reach or exceed the price accepted by us in a Transaction, we will be entitled (but not obliged), in our absolute discretion to disregard any prices quoted on our Platform during any pre-market, post-market or intra-day auction periods in the relevant Underlying Markets, during any intra-day or other period of suspension in the relevant Underlying Markets, or during any other period that in our reasonable opinion may give rise to short-term price spikes or other

distortions. Our prices may differ from the current prices on the relevant Underlying Markets and you acknowledge that a Transaction may be triggered even though:

- an Underlying Market never traded at the level of your Transaction; or
- the Underlying Market did trade at the level of your Transaction but for such a short period that it would have been impractical to execute an equivalent transaction on the Underlying Markets.

37.8 When you place an Order on the Trading Platform, you agree that you are not dealing a recognized exchange.

37.9 You undertake and agree not to use the prices quoted on the Trading Platform for any purpose other than for your own trading purpose, and you agree not to redistribute our prices to any other person whether such redistribution is for commercial or other purposes.

37.10 You acknowledge that each Transaction is made for a specified number of units that constitute the Underlying Asset. You may only complete Transactions on the Trading Platform for the minimum number of units as set forth on the Trading Platform as the "Unit Amount", and in multiples of such "Unit Amount" up until the maximum amount permitted by the Trading Platform. You acknowledge and agree that we may set, in our sole and absolute discretion, the "Unit Amount" for each Underlying Asset.

37.11 Each Position opened by you, and any Transaction completed, will be binding on you notwithstanding that by opening the Position you may have exceeded any credit or other limit applicable to you or in respect of your dealings with us.

37.12 You may request a Quote to open or close a Position for a particular Underlying Asset, at any time during the Trading Hours for such Underlying Asset. We will be under no obligation to but may, in our absolute discretion, provide a Quote and accept and act on your offer to open or close a Position for an Underlying Asset outside of the Trading Hours of such Underlying Asset. In some cases, Transactions may only be traded during the time when the relevant Underlying Market is open. Trading Hours are displayed on the Trading Platform under the details link for each specific Underlying Asset. It is your responsibility to ensure you are aware of which Underlying Asset may be affected.

37.13 Without prejudice to any of our right hereunder, if, prior to the acceptance of your Order to open or close a Position, we become aware that any of the factors set out in paragraph 37.13 herein, has not been met, we reserve the right to reject your Order outright. If we have, nevertheless, already opened or closed a Position prior to becoming aware that a factor set out in paragraph 37.13 herein has not been met, we may in our discretion, either treat such a Transaction as void from the outset or close the Open Position at our then prevailing price. However, we may, in our absolute discretion, allow you to open or, as the case may be, close the Open Position in which case you will be bound by the opening or closure of such Position, notwithstanding that the factors in paragraph 37.13 herein were not satisfied.

The factors referred above include the following:

It is the Client’s responsibility to be aware of his positions at all times.
- 37.16 Benefits – Takeovers and Transformations (including events such as share consolidations/splits, mergers, takeovers, spinoffs, MBO’s, de-listings, etc.). Depending on the circumstances of each event, our policy is to close out any customer open positions at the market price immediately prior to the event taking place. As a result of such event, if any Underlying Asset becomes subject to an adjustment as the result of a takeover or transformation action we shall determine the appropriate adjustment to be made to the contract price or contract quantity as we consider appropriate to account for the diluting or concentrating effect of the action. Such adjustment shall represent the economic equivalent of the rights and obligations of us and you immediately prior to the action.
- 37.17 Insolvency. If a company, whose Underlying Asset forms the CFD goes into insolvency or is otherwise dissolved, we shall close any such of your open Transactions in CFD of that Underlying Asset. The closing date shall be the date of insolvency.
- 37.18 The Company will use reasonable efforts to execute an Order, but it is agreed and understood that despite the Company’s reasonable efforts transmission or execution may not always be achieved at all for reasons beyond the control of the Company.

38. Force Majeure

- 38.1 The Company shall not be in breach of this Agreement and shall not be liable or have responsibility of any kind for any loss or damage incurred by the Client as a result of any total or partial failure, interruption or delay in the performance of this Agreement occasioned by any act of God, fire, war, civil, commotion, labor dispute, act of government, state, governmental or supranational body or authority, or any investment exchange and/or clearing house, inability to communicate with market makers for whatever reason, failure of any computer dealing system, any other breakdown or failure of transmission in communication facilities of whatever nature, between the Firm and the Client or any third-party whatsoever, or any other reason (whether or not similar in kind to any of the above) beyond our reasonable control (a “Force Majeure Event”).
